European Big Data Value Forum
November 12, 2018

Building a bridge between technical and business benchmarking

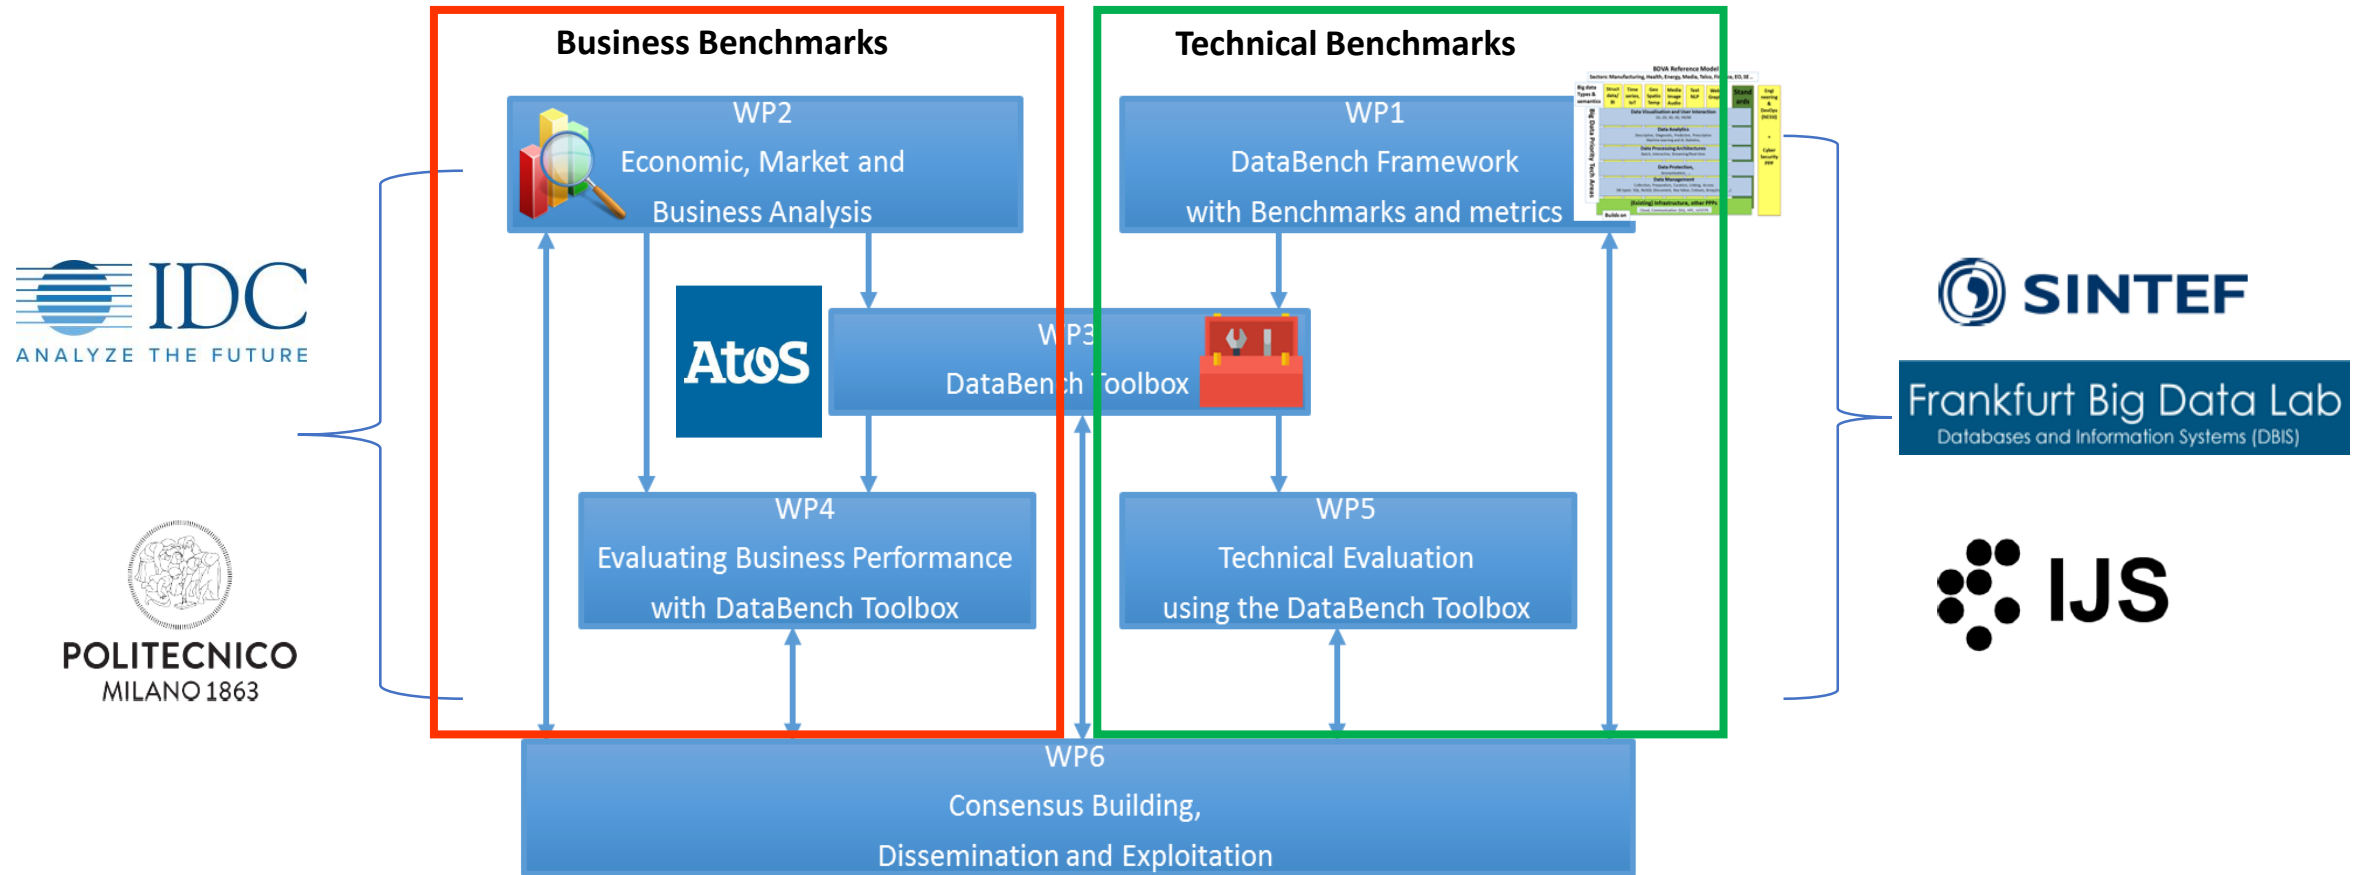

Main Activities

- Classify the main use cases of BDT by industry
- Compile and assess technical benchmarks
- Perform economic and market analysis to assess industrial needs
- Evaluate business performance in selected use cases

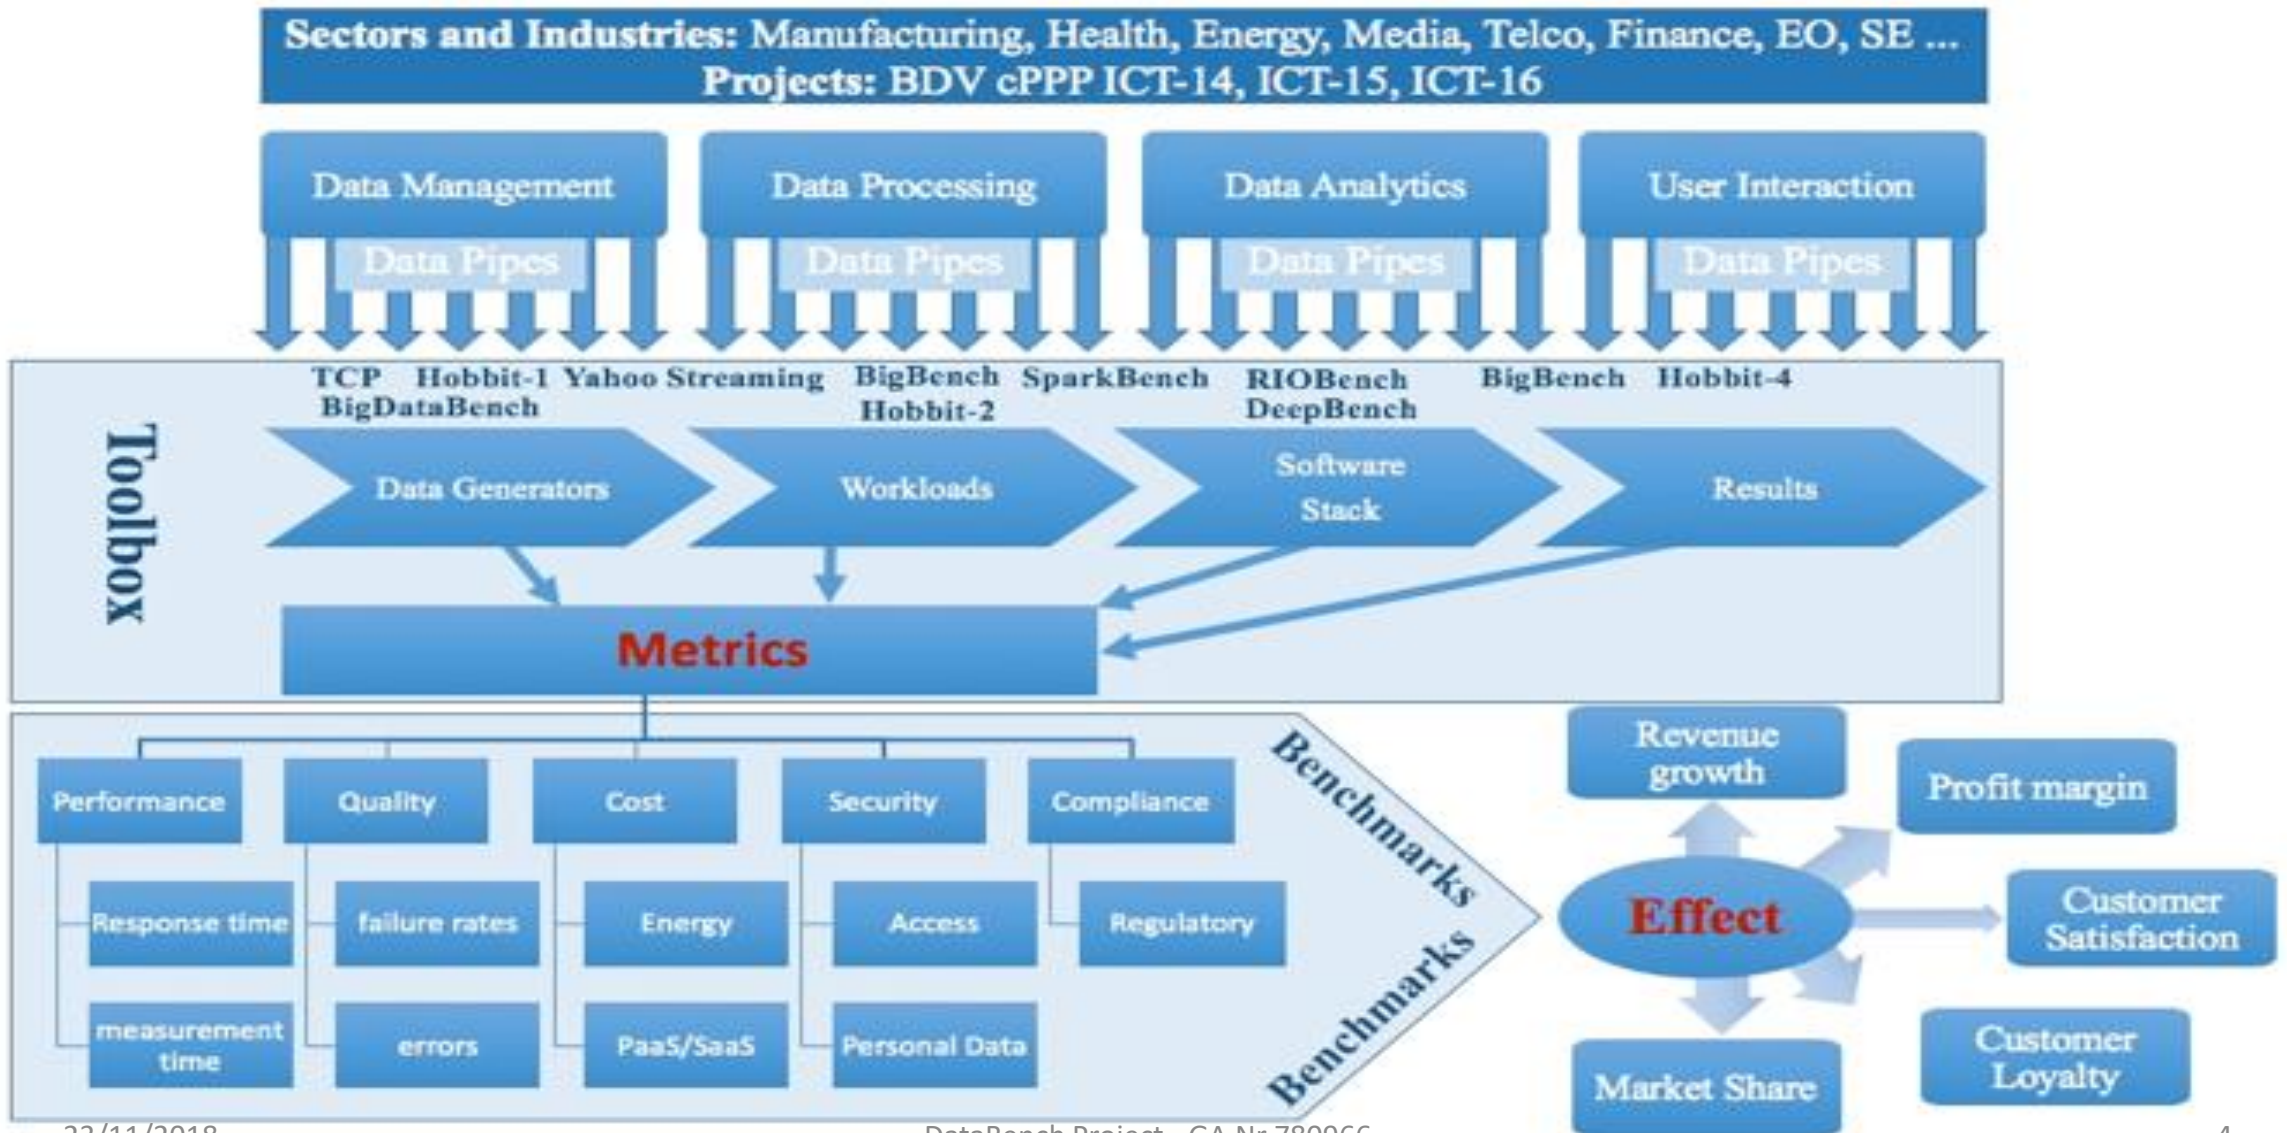

Expected Results

- A conceptual framework linking technical and business benchmarks
- European industrial and performance benchmarks
- A toolbox measuring optimal benchmarking approaches
- A handbook to guide the use of benchmarks

Databench Workflow

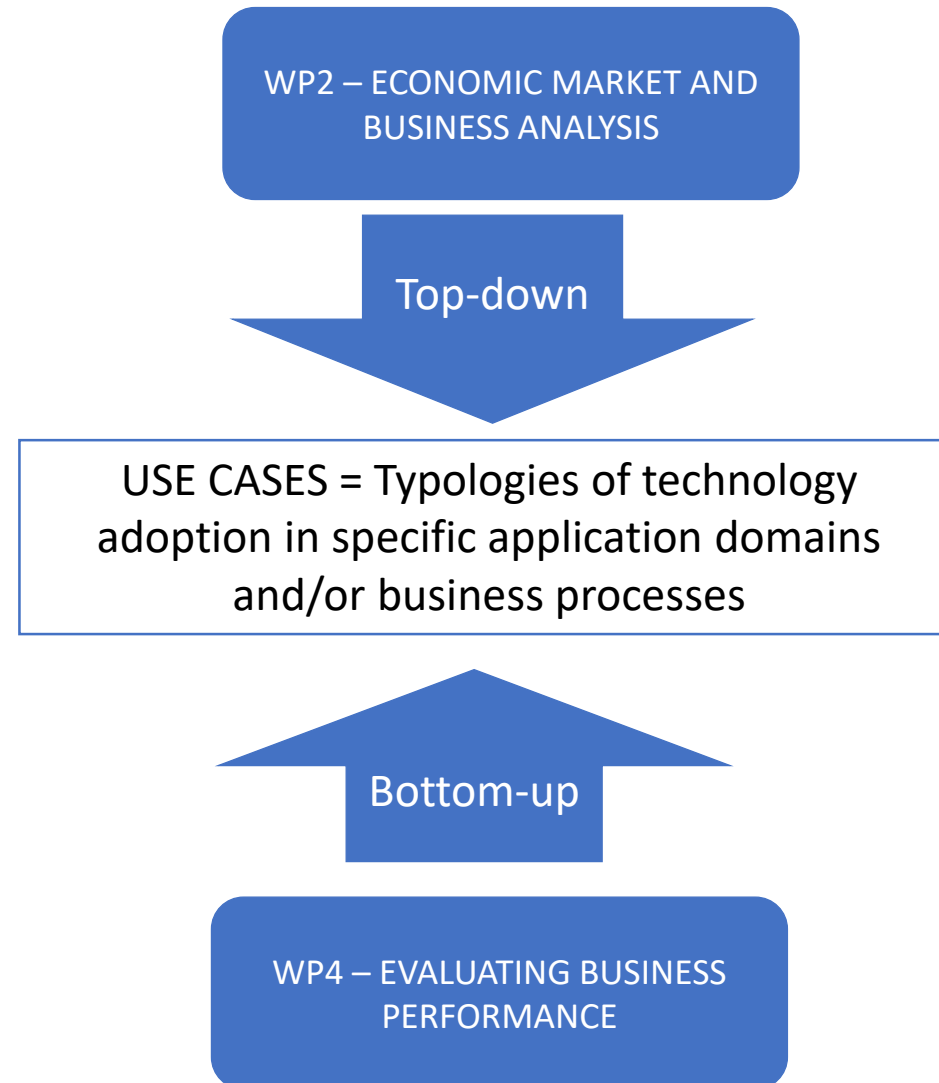

Where Magic Happens

How to link technical and business benchmarking

- Focus on economic and industry analysis and the EU Big Data market
- Classify leading Big Data technologies use cases by industry
- Analyse industrial users benchmarking needs and assess their relative importance for EU economy and the main industries
- Demonstrate the scalability, European significance (high potential economic impact) and industrial relevance (responding to primary needs of users) of the benchmarks

- Focus on data collection and identification of use cases to be monitored and measured
- Evaluation of business performance of specific Big Data initiatives
- Leverage Databench toolbox
- Provide the specific industrial benchmarks to WP"
- Produce the Databench Handbook, a manual supporting the application of the Databench toolbox

Early Results from the Databench Business users Survey

Big Data is Worth the Investment

DataBench

Benefits Achieved So Far

Nearly **90%** of businesses saw **moderate** or **high** levels of benefit in their Big Data implementation

DRAFT

Increase in Profit

5%

Adopting Big Data Solutions increased **profit** by **5%**, **revenue** by **4%**, and reduced **cost** by **3%**

Impact of Adopting Big Data Solutions

What can DataBench do for you?

- Provide methodologies and tools to help assess and maximise the business benefits of BDT adoption
- Provide criteria for the selection of the most appropriate BDTs solutions
- Provide benchmarks of European and industrial significance
- Provide a questionnaire tool comparing your choices and your KPIs with your peers

What we want from you?

- Expression of interest to become a case study and monitoring your Big Data KPIs
- Answer a survey on your Big Data experiences
